What Is 369web3 ?

369Web3 is a 100% decentralized Web3 earning platform built on the Binance Blockchain (BSC). The platform is fully automated and community-driven, with no central owner or authority—everything operates on a fixed, pre-built system.

Key Features :
Fully Decentralized: No owner, no interference, fully autonomous.
Blockchain-Based: Runs on Binance Smart Chain for speed, security, and transparency.
Immutable System: The platform's structure is unchangeable, ensuring consistent and reliable performance.
Profit-Focused: Designed to provide 100% profitable earning opportunities with no risk of loss.
Easy to Use: Users can join and start earning immediately through the automated system.

369Web3 is a ready-to-use, fully secure, and profitable Web3 platform, allowing users to participate in a decentralized ecosystem where all processes are handled automatically by the system.

Why Choose 369Web3

369Web3 is more than just a Web3 earning platform—it is a fully decentralized, secure, and reliable ecosystem designed to provide long-term earning opportunities. Here's why it stands out

- 100% Community-Driven, Decentralized & Transparent: The platform is **entirely driven by its users**, with no central authority, ensuring full transparency and fairness in all operations.
- 100% Profitable: Built on a fixed, automated system, the platform guarantees profitability with **no risk of loss**, making it a dependable choice for users.
- Secure & Stable: Leveraging the **Binance Blockchain**, the platform offers a robust and secure environment, safeguarding all user interactions and assets.
- Lifetime Operation: The platform is **designed to run continuously**, ensuring that users can rely on it for long-term participation.
- Fully Legal: 100% compliant and legitimate, guaranteeing uninterrupted operation **without the risk of shutdown**.

369Web3 provides a seamless, trustworthy, and highly profitable earning experience, making it the ideal choice for anyone looking to participate in a decentralized Web3 ecosystem.

Ai 369 WEB3

Subscription Package	Direct Point Value	Daily Trade Unit Limit	Renewal Total Earnings Cap	Renewal Days
$3	0.3	Max 1 Unit	9 × 3 = $27	Or 180 Days
$6	0.6	Max 3 Units	18 × 6 = $108	Or 180 Days
$9	0.9	Max 6 Units	27 × 9 = $243	Or 180 Days
$30	3	Max 15 Units	90 × 30 = $2700	Or 180 Days
$60	6	Max 30 Units	120 × 60 =$7200	Or 180 Days
$90	9	Max 60 Units	180 × 90 =$16200	Or 180 Days

- Unit Value = **1 Unit = $30**
- **Renewal is required upon reaching the total earnings cap** Or **the specified number of days.**
- The retopup after $90 will remain the same, or you may choose an amount above $90. The maximum earning   cap will be 180 times your package amount.

Ai 369 WEB3

- Initial Units: On launch day, 36 units are available for Traders.

- Once a slot is fully filled, the next slot opens 1 hour later with the same quantity. This cycle continues for 6 slots. After the 6th slot is completed, the 7th slot opens with a 36% increase, continuing the structured growth pattern.

- Each unit follows a single, complete cycle consisting of 6 slots. A cycle is considered complete when all 6 slots are fully filled, with each subsequent slot opening 1 hour after the previous one.

- Upon cycle completion, the investor's principal amount plus profit is automatically credited to their decentralized DAP wallet, ensuring a seamless and transparent payout process.

- Earnings & Returns: Profits are earned at the end of the cycle based on the number of units held.

- No Holding Beyond Cycle: Units cannot be held beyond the slot cycle; reinvesting is required to participate in the next cycle.

100% Distribution

Subscription Package (100%)

Team Level Income	45%
Royalty Income	10%
Creator Profit	10%
Liquidity Pool	35%
Total	**100%**

|	
To Investor on Trading Amt.	9%
To Team Level Income	12%
To Creator	6%
To Liquidity Pool	6%
To Gold Achiever	3%
Total	**100%**

- The 369 Web3 platform is a 100% decentralized plan run by the community. In the event of any issues, the community can restart the system through a voting mechanism.
- The liquidity pool ensures all members in the last slots receive their principal amounts. Once distributed, the system restarts from the first stage with 36 slots.
- In case of a deficit in the liquidity pool, any member whose principal was not fully returned will receive their funds when the system restarts and the liquidity pool is replenished.
- This structure guarantees no loss for any member. While full distribution may take time, every participant will ultimately receive their principal.
